

## ANNOUNCEMENT

### Genes, Development, Cancer

#### Society for Developmental Biology 1995 Annual Symposium

University of California, San Diego, California, Saturday August 26-Wednesday August 30, 1995

Program Co-organizers: Helen M. Blau and Nadia Rosenthal

Local Organizer: Victor Vacquier

#### Saturday

Keynote Address: Carla J. Shatz

#### Sunday

Plenary Session I: *Genetic analysis of cell lineage* Eric N. Olson

Lunch: *Minorities' interests*

Minisymposia:

(1) *Inductive mechanisms in development* Elizabeth Hay

(2) *Limb development* Margaret Buckingham

(3) *Neurogenesis and neurotrophic factors* Marianne Bronner-Fraser

(4) *Membrane, cytoskeleton and cell signalling* Daniel Louvard

Plenary Session II: *Polarity and patterning* Matthew P. Scott

#### Monday

Plenary Session III: *Post-transcriptional control of gene expression* Marvin P. Wickins

Lunch: *Ethical issues* Jerry Schatten

Minisymposia:

(1) *Cell-cell interactions* Norton B. Gilula

(2) *Organogenesis* Mark Fishman

(3) *Fertilization/activation of development* Victor Vacquier

(4) *Molecules and morphogenesis* Merton R. Bernfield

Plenary Session IV: *Transcriptional control in differentiation and cancer* Robert N. Eisenman

#### Tuesday

Workshop: *Educational issues* David G. Capco

Plenary Session V: *Cellular communication in development and cancer* John B. Gurdon

Lunch: *Diversity issues: Women and gays* Judith Croxdale/Ann Fausto Sterling

Plenary Session VI: *Cell cycle control in development and cancer* Patrick H. O'Farrell

Concluding banquet speaker: Eric Davidson "A historical perspective"

#### Wednesday

Plenary Session VII: *Cell compartmentalization in development* Lucy Shapiro

There will be five dedicated poster sessions, three evening and two afternoon sessions, and a best poster competition for graduate students and postdoctoral fellows.

Deadline for submission of abstracts is April 14, 1995.
